CHICAGO

NEW YORK

THE A. I. ROOT CO.,

MEDINA, OHIO.

Known the world over as the leading manufacturers of BeeKeepers' Supplies, write as follows:

The Patterson-Sargent Co.

Gentlemen:–

We have carefully tested B. P. S. Paint in every way in our works and find it to be indeed the "Best Paint Sold" for general spreading quality and purity. Using and selling paint as we do, we are and have been desirous of handling only the best and purest goods. To satisfy ourselves beyond a question, we had a sample of it, bought in the open market, analyzed by the State Chemist. The result showed the goods to be all that was represented.

It gives us pleasure to certify to the merits of a really good article, and we hope the time will soon come when the public for its own sake will learn that cheap adulterated paints are dear at any price.

Very sincerely yours,

(signed) A. I. ROOT.
